LILY CULTURE

Lilies may be planted in light shade but prefer a sunny situation with the lower part of the stem shaded by other plants. This keeps the ground moist and cool which they like. Plant in any good well prepared soil, setting the bulbs 6 to 10 inches deep, depending much on size, with exceptions noted in descriptions. Mulch for the winter after ground is frozen.

CALIFORNIA DARK PLUM. A new variety in the so-called "red" shades. Best described as a deep plum red. It is considered very desirable and one of the best of its color. Flowers are large, well formed and produced freely on a compact, shapely plant. An acquisition to anyone's collection. Each, \$1.79.

CARDINAL GIANT. The finest near-red color which we have been able to find. There is definitely no real red (or yellow) African Violet. The color is best described as a wine or burgundy red or if you prefer, a red-violet. Perhaps some day we will have a really red or scarlet colored variety but that is doubtless well in the future so at present Cardinal Giant is the nearest to that color. Extra large flowers and robust habit of growth make this variety outstanding. Each, \$1.59.

DOUBLE ROSE. A really beautifully double flower much like a small rose. The flowers are of extra large size, mostly white with a flush of rosy lavender in center, at base of petals. Nice compact habit of growth and altogether an unusually good variety. Decidedly different and very much worthwhile. Each, \$1.98.

FAIRY TALES. A quick growing and very free-blooming variety. When in full bloom, the plant looks almost like a bunch of violets. Each flower is of large size, violet-blue with yellow eye. Quite different from any other African Violet. Each, 78c.

STANDARD VARIETIES

BLUE BOY IMPROVED. Blooms almost the entire year, bearing in profusion its lovely purple flowers with tiny golden centers. Each, 79c.

LAVENDER LADY. Light lavender. Very free bloomer. Each, 98c.

MERKLE'S RED. Not actually red. The color is a deep red-plum and decidedly different from other "violet" colors. Foliage grows upward producing a well shaped plant. A splendid addition to any collection. Each, 98c.

PINK BEAUTY. Plant Pat. No. 514. Exclusive pink flowers with yellow stamens. Each, 89c.

WHITE LADY. Plant Pat. No. 597. The best white produced to date. Large perfect flowers. Each, 93c.

A REAL BARGAIN

The above five varieties represent an almost complete range of colors, and are all very good. Invaluable for those just starting to grow "violets" or—to anyone.

PAINTED GIRL. A very unusual color. The petals are white edged wine, the dark color gradually fading into the white. The two top petals are a little darker. Very bright and attractive. Each, \$1.69.

FRINGETTE. Here is the newest type of African Violet with fascinating fringed flowers. Instead of smooth edged petals, they have fringed and laciniated edges which give the blooms an entirely different and showy appearance. The plant is all that could be desired with large, healthy foliage. The colors, as yet, are somewhat limited, but we offer you a choice of three shades. **BLUE, MAUVE, RED.** Any color: Each, \$1.49; 3 for \$4.00.

GENEVA RAINBOW. An offspring of the beautiful Lady Geneva with the same nice large flowers and fine plant. The color, however, is a burgundy-red, instead of blue, but with the same narrow white edge to each petal. If you liked Lady Geneva, you will surely like this variety also. This picotee-edged type is still uncommon and one or two specimens, at least, should be in every collection. Each, \$1.79.

HOLLY. A distinctly outstanding variety for its foliage alone. The leaves are very dark, almost a bronzy green with reverse side reddish. They are very much like holly in shape with crinkled edges. Blue flowers. To our knowledge there is no other similar variety and this plant will provide a definite addition to your collection. Each, \$1.49.

WHITE MADONNA. Here is a greatly improved variety with beautifully formed double flowers of purest white. The large blooms are held well above the dark green girl type foliage. The very finest double white violet. Each, \$1.79.

There is a glowing quality to this color, very difficult to describe but decidedly noticeable when once seen. A dependable free-blooming plant almost in a class by itself. Each, \$1.29.

Orchid Wonder

ORCHID WONDER. Considered a giant among giant flowering varieties with flowers, often claimed to be as large as a silver dollar. They will surely be much larger than a 50c piece and the color is a lovely lavender-orchid, somewhat deeper in color around the stamens and on the two upper petals. Easy to grow and a profuse bloomer. A real beauty and a decided acquisition to anyone's collection. Each, \$1.79.

PINK WONDER. There are still not too many good pink violets. Pink Wonder, however, appears to be about the best to date and has just about every good feature. The flowers are extra large, of a lovely clear pink color and the plants are strong and healthy. Don't miss this variety if pink is one of your favorite colors. Each, \$2.29.

PURITY. The first pure white double flowering variety available. Large fully double flowers on good stems and the plant is a profuse bloomer. A beautiful "violet" supplying a long wanted type. Each, \$2.39.

SNOW PRINCE. Absolutely pure white flowers that are full, round and of huge size compared to ordinary varieties. The well branched stems always carry many flowers and buds. If white varieties have heretofore proved troublesome, try Snow Prince for full satisfaction. Each, \$1.69.

STAR SAPPHIRE. The somewhat pointed petals of the star-shaped flower makes this variety well named. The flower, of deep sapphire blue is further enhanced by a double set of pistils which create a bright gold crest in center. A bit of ruffling at each petal tip adds grace to an amazingly large flower on compact plant. Each, \$1.79.

LAWN SEED MIXTURES

MERION LAWN SEED MIXTURE

For that velvety, thick, green lawn you so much desire, use our Merion Lawn Seed Mixture, which is composed of all perennial grasses, correctly blended so as to produce a deep, fine turf that will remain green and healthy all season. This mixture contains five selected companion grasses that thrive splendidly together, namely: 45% Merion Blue Grass, 35% Illahee Fescue, 10% Colonial Highland Bent, with 5% Perennial Red Top and 5% Perennial Rye Grass. The last two mentioned grasses especially adapted as nurse grasses, because they make a quicker growth and help to protect the other grasses until they are well established. The permanent grasses in this mixture spreading from underground root runners will produce a deep thick sod, which is heat and drought resistant, remaining green all summer even during the hottest weather and will stand close mowing. It is also resistant to diseases and because of its dense growth will crowd out weeds including crab grass.

Merion Lawn Seed Mixture is adapted to wide range of soils and will produce a beautiful vigorous lawn wherever other blue grasses grow. One pound of this mixture will seed 750 sq. feet.

4482—Lb., \$2.75; 2 lbs., \$5.25; 5 lbs., \$12.75; 10 lbs., \$24.75; 25 lbs., \$61.25, postpaid. Not prepaid: 100 lbs., \$235.00.

ILLAHEE LAWN SEED MIXTURE: Contains a predominance of Illahee Fescue, the new wonder or Paradise grass.

The mixture will do exceptionally well in both sunny and shady locations and will not brown in summer like other grasses, but will continue growing and retain its beautiful green color throughout the hot season.

Illahae Lawn Seed Mixture provides a heavy, deep rooted sod that survives on poor soils, and withstands hard usage or tramping. Because of the dense root growth and luxurious sod produced by this mixture, Crab Grass and other weeds find it almost impossible to become established as they are soon crowded out. Its growth is lower, thicker, more spreading and of a darker green color and it roots more deeply than bent or Kentucky blue grass, which makes it more resistant to drought. Its thick growth helps to discourage crab grass and other weeds. The seed of Merion Blue Grass is very small, requiring only 1 lb. to seed 750 square feet. 4481—Certified Blue Tag Seed—½ lb., \$2.10; 1 lb., \$3.85; 3 lbs., \$11.50; 5 lbs., \$19.00; 10 lbs., \$37.50 postpaid.
